Vote YES on Prop 68
June 5th, 2018

Prop 68 invests $4 billion to address California's most important water, park, and natural resource needs across every community – rural, urban, coastal and inland.

For Bolsa Chica, that means the opportunity to acquire Ridge and Goodell and to address major maintenance and restoration projects which will ensure the health and biodiversity of our wetlands and mesa.

Please vote YES on Prop 68 – for California, for Bolsa Chica
